DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 26 January 2006 has been entered.

Allowable Subject Matter

2. Claims 1-20 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

Claims 1 and 2, as well as the respective dependent claims, are found to be allowable because the prior art of record neither teaches nor reasonably suggests the recitations found therein, including a pneumatic tire comprising the cord as claimed. More specifically, and as explained by Applicant, the cord as previously constructed is incorporated into a pneumatic tire, and upon curing of the tire, the cord component acting as a binder is subjected to temperatures above its melting point, causing the binder to melt and flow, leaving behind a structure neither taught or suggested in the prior art, including the gaps between filaments plus the melted and remaining binder material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
